

WHAT IS THE VALUE OF FSSA MEMBERSHIP TO YOU?

Since the founding of the FSSA over twenty years ago, non-members have asked about the value of an FSSA membership. Often membership is discussed in intangible terms; increase your knowledge, interact with your peers, give feedback to your suppliers. A loose value a company received, but never put in concrete terms.

The truth is that FSSA delivers you real value. The dollars change regularly and the “intangibles” of membership often have a multiplying effect. For any business leader a return of \$6,525 on a \$980 annual investment is a great payback.

The “true value” of FSSA membership goes well beyond the dues to make your business a leader in the field of special hazards fire suppression.
